Hi Nathan,

I'd like to express my gratitude to you and your team for finding the solution to a long term problem in sourcing a restaurant table base to match our existing 9 year old stock.

I had contacted many companies over the last two years and had all but given up hope that the table bases still existed in the global market place.

Many a sales rep just tried to steer me towards a *like alternative* despite my exacting brief.

It was from a cold call from your office that the ball started rolling and although at first it was not sure what we were looking for, within 6 weeks the correct bases were in use in our restaurant earning revenue for us.

Thanks again for your research, ongoing communication and determination to solve this problem.

Yours sincerely
